This document is a user manual showing how users interface for the pineapple stocks website. The document will explain the structure of the application and how to users will be navigating through the website.

Navigation

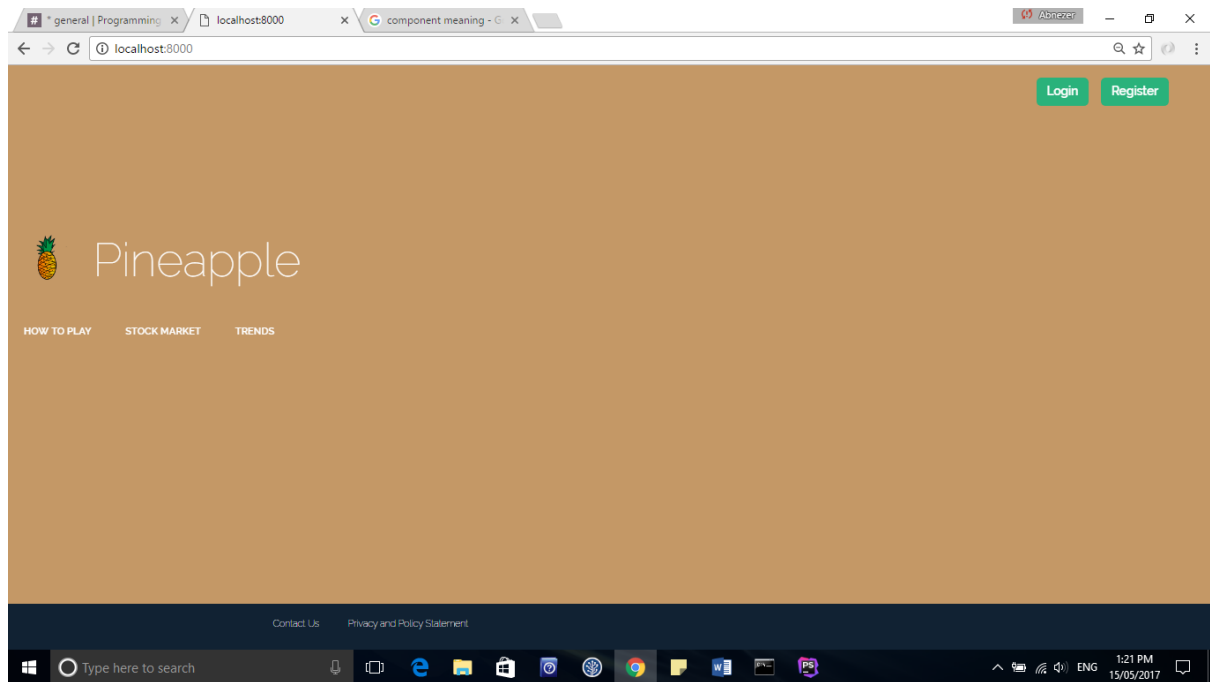

The main navigation bar is located at the top of the page along with a footer located at the bottom of the page. This two elements are embedded in all pages for user to quickly navigation through different pages.

The navigation bar includes a logo and links to dashboard, leader board and social with a drop down menu to friends, messages and profile. Inbox link alerts user of all the notifications messages that have not been viewed. Once the user logins in the website welcomes the user and Logout link allows user to log out.

User

Step 1: from the home page click the registration button to register to login into sticks and stock website

Step 2: Registration page fill in the blanks with correct information and then click register button

A screenshot of the registration page on the 'Pineapple' website. The page has a dark blue header with the 'Pineapple' logo on the left and 'Login' and 'Register' links on the right. The main content area is white and contains a registration form. The form has a title 'Register' and four input fields: 'Name', 'E-Mail Address', 'Password', and 'Confirm Password'. Below these fields is a green 'Register' button. Underneath the button, there is a section titled 'Sign in with:' followed by three social media login buttons: 'Sign in with Twitter' (blue), 'Sign in with Facebook' (dark blue), and 'Sign in with Google' (red). At the bottom of the page, there is a dark blue footer with links for 'Contact Us' and 'Privacy and Policy Statement'.

Step 3: login using email and password and then click the login button. Use forgot password link only if needed to reset the password
