## Introduction

This document is a user manual showing how users interface for the pineapple stocks website. The document will explain the structure of the application and how to users will be navigating through the website.

# Navigation

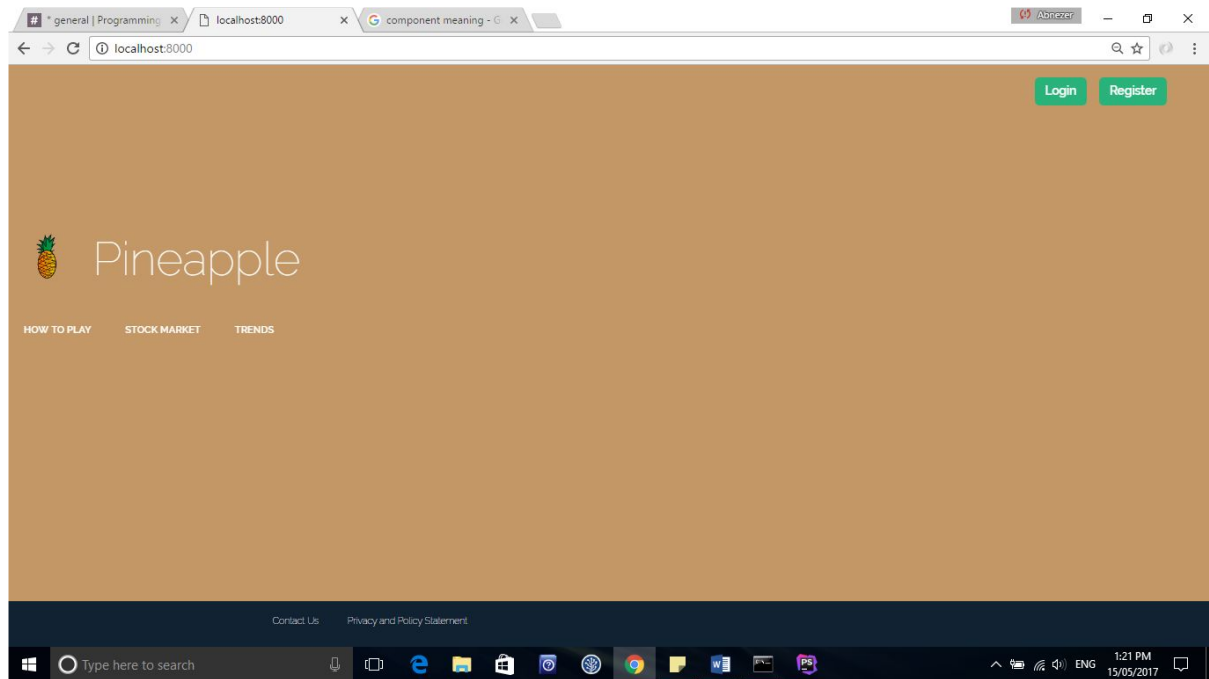

The main navigation bar is located at the top of the page along with a footer located at the bottom of the page. This two elements are embedded in all pages for user to quickly navigation through different pages.

The navigation bar includes a logo and links to dashboard, leader board and social with a drop down menu to friends, messages and profile. Inbox link alerts user of all the notifications messages that have not been viewed. Once the user logs in the website welcomes the user and Logout link allows user to log out.

# User
